

JTW International, Inc.

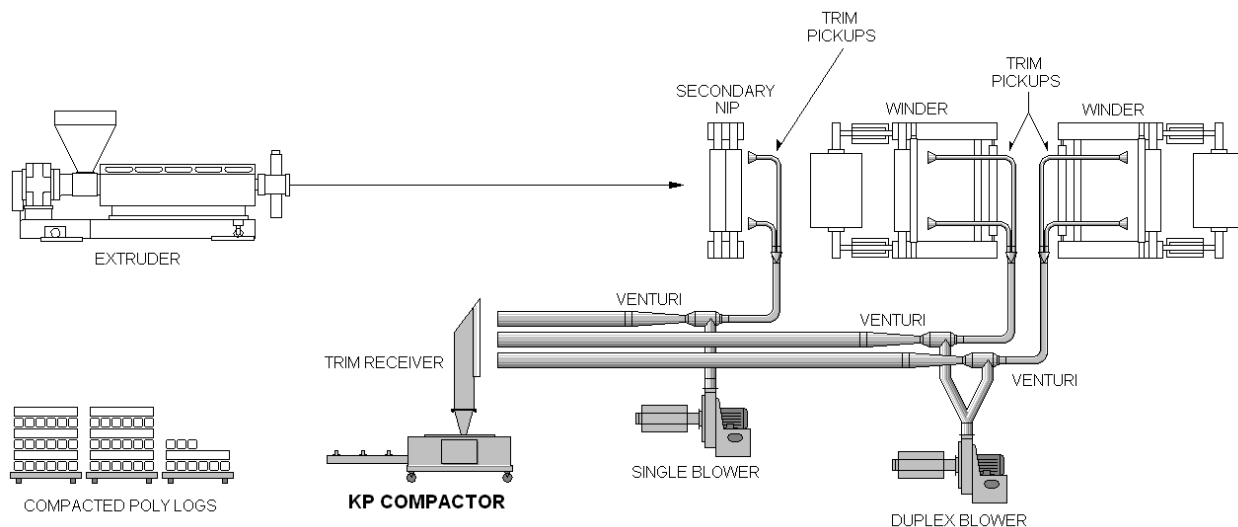

TRIM CONVEYING SOLUTIONS: Venturi Inducer Systems

JTW International, Inc. offers complete trim scrap handling solutions to meet any requirement. From simple componentry to complete plant-wide conveying systems, JTW supplies cost-effective packages with unparalleled support.

Our inducer systems can be integrated into any extrusion or converting system and are engineered to meet your specific situation.

FEATURES:

- Off the shelf models available for quick installations
- Optional mobile units available provide flexibility
- Single & multiple trim pickups
- Complete system engineering for single extrusion / converting lines or plant-wide applications
- Additional components include in-line silencers, air dampers, trim receivers and motor starters.

JTW inducer trim conveying systems can be integrated with in-line trim recycling, repelletizing or compacting systems, as shown.

A standard inducer system typically includes the venturi, blower, AC motor and trim inlets. Options for in-line silencers, dampers and starters are also available.

Optional In-Line Air Evacuator

Standard Inducer Models

Type	Inlet	Outlet	HP
IN306-050	3"	6"	5.0
IN306-075	3"	6"	7.5
IN408-100	4"	8"	10
IN408-150	4"	8"	15
IN510-150	5"	10"	15

Optional Air Diffusers

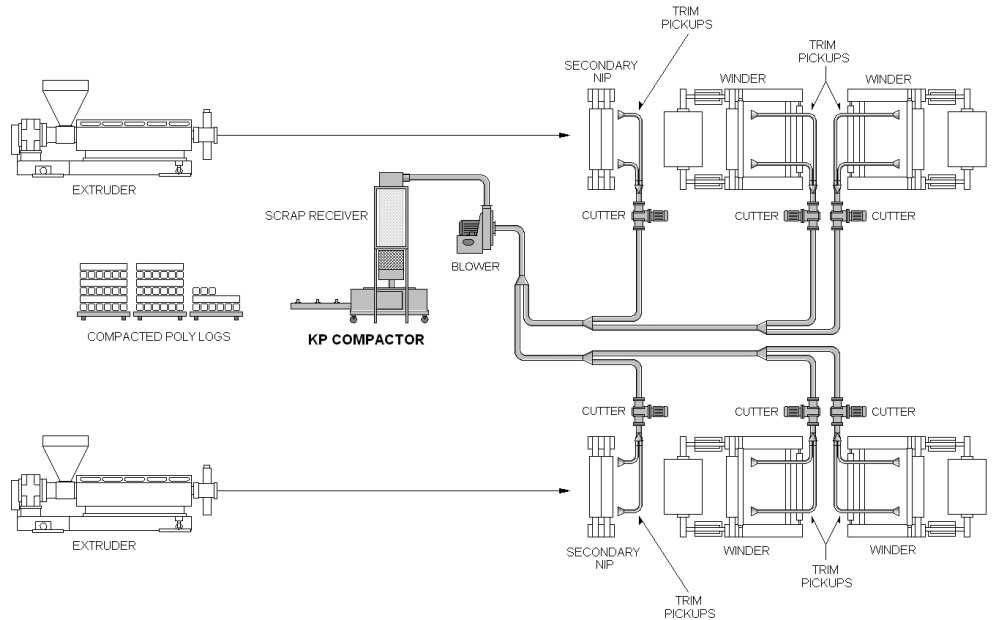

In-Line Cutter Systems

Cutter – blower systems can deliver scrap in high volumes and greater distances. JTW International's cutter - blower systems can be integrated into any extrusion or converting system and are engineered to meet your specific situation.

FEATURES:

- Operable with plastic, paper, or most other flexible substrates
- Single & multiple trim pickups
- Capable of conveying higher volumes and/or greater distances, compared to inducer systems
- Complete system engineering for single extrusion / converting lines or plant-wide applications

JTW offers complete solutions, including grinding, baling and compacting systems, as shown

Compact, low-maintenance cutters are available for most applications.

Trim/Scrap Receiving Options:

Scrap Receivers for High Air Volume Applications

Cyclone Receivers for Small Particles and Fluff

Continuous Trim Receiver shown directly mounted to Poly Compactor
